

RESER'S ANNOUNCES PLANS TO BUILD STATE-OF-THE-ART SALAD & SPECIALTY FOOD PLANT AND DISTRIBUTION CENTER IN HILLSBORO

Beaverton, Ore. July 7, 2014 – Reser's Fine Foods, a leading manufacturer of freshly prepared foods, announced late-summer plans to break ground on a new 310,000 square foot facility located in Hillsboro, Oregon. The new salad and specialty food plant and distribution center will provide the company with 35 percent more capacity than the existing two Beaverton plants combined.

"This is a significant milestone for our company," stated President Mark Reser. "For more than 60 years, our family has been committed to making wholesome food right here in Oregon, and we've grown because we've listened to our customers. This new facility allows us to efficiently and effectively fulfill the varied demands of an ever-evolving marketplace."

The new facility is being carefully designed to incorporate enhanced flexibility and the newest innovations in food manufacturing, and positions the company for further expansion as growth continues. All manufacturing activities and jobs at the two existing Beaverton plants will move to the new facility, slated for completion by Fall 2015.

The company headquarters and corporate offices will remain at the Jenkins facility in Beaverton, Oregon. Currently, Reser's operates 16 facilities in the United States and Mexico and employs nearly 4,800 employees in the United States, Mexico and Canada.

About Reser's Fine Foods

North American-based Reser's is the leading provider of deli salads, fresh salads, side dishes and prepared foods. Reser's makes fun times easy and affordable for every family. Reser's famous deli salads are a family favorite at picnics, BBQs and tailgaters. Founded in 1950, the company remains privately owned and operated and committed to providing delicious refrigerated foods for the supermarket and food service industries. Reser's operates 16 facilities in the United States and Mexico and employs nearly 4,800 employees in the United States, Mexico and Canada. Visit www.resers.com.
